Register for April Energy Conference

Join us for two days of learning about a low-carbon energy future from the perspective of thought leaders in the energy sector. This knowledge-sharing event brings together leaders from industry, academia, and government to open the dialogue about sustainability and our energy future.

Speakers and panelists will focus on lower-carbon energy solutions in four key areas:

- Achieving a sustainable balance in the utility industry
- Opportunities for sustainability in the transportation sector

- Energy innovations in urban development
- Sustainable energy policy

The event will take place April 13-14 at Saint Louis University, with the conference reception on April 13 at Washington University's Hillman Hall. The \$50 registration fee covers lunches, breaks, the evening reception, and conference materials. Participants will also receive a certificate awarding professional development hours. Students may register for free using the code WAU3130. Students are required to bring a student ID to the event for verification.

The conference is being planned through a collaboration between Washington University, Saint Louis University, Missouri S&T, and Ameren. View the preliminary [agenda](#) and list of [speakers](#) online.

Green Cup: Energy Competition

The 6th annual energy reduction competition took place February 1-28. Based on meter data collected, student efforts resulted in a reduction of approximately 168,294 kWh of electricity! Click to see who won in each league... [More >>](#)

Minimize Waste with Hanging Basket

WUSM Facilities Custodial Services is offering a limited number of small hanging waste baskets to WUSM campus staff. The baskets attach to standard desk side recycle bins and help users to reduce waste... [More >>](#)

Save the Date: WUSM Earth Day 2016

Earth Day festivities will take place on the WUSM campus Thursday, April 14, from 11a-1p in conjunction with the weekly Farmer's Market in Hope Plaza. Vendors from throughout the region will be on hand... [More >>](#)

Alternative Transportation Options

Washington University supports a variety of transportation options that lessen environmental impact, encourage healthy lifestyles, and strengthen sense of community. Click to learn about popular options... [More >>](#)

Specialized Equipment Saves Energy

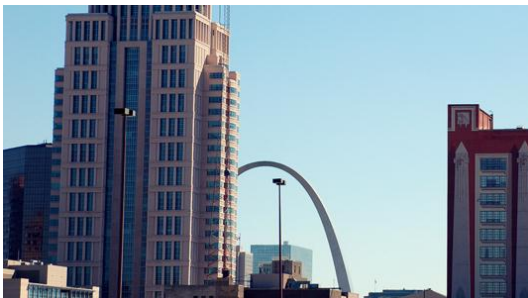

WUSM's Facilities Management Department recently started replacing conventional belts and pulleys with specialized versions that reduce labor and energy needed to circulate air through buildings... [More >>](#)

Report: Dire Impacts of Pollution

According to a new report by the World Health Organization, about a quarter of all deaths globally are attributable to preventable environmental factors, such as air and water pollution and poor sanitation... [More >>](#)

Events

Greening Your City

Date: March 29, 1-7p

Location: 4651 Shaw Blvd., 63110

Meet Me Outdoors in STL Festival

Date: April 2-3, 9a-3p

Location: MO Botanical Garden

Join the St. Louis American Planning Association's spring workshop, which will feature break-out sessions on topics related to model codes and ordinances, as well as on incorporating sustainability into neighborhood and comprehensive planning. [More >>](#)

Help kick-start spring during this fun weekend festival by celebrating the outdoors. In addition to seasonal reopenings and wildlife-habitat building sessions, you can enjoy the debut of the PlantLab, a greenhouse-like space for hands-on plant science and stewardship. [More >>](#)

The Office of Sustainability newsletter is intended as a clearinghouse of sustainability-related news and events at the university, in the region and around the world. Listings in the newsletter do not necessarily represent Office of Sustainability endorsements or views.
