1.02 – DEFINITIONS, ABBREVIATIONS AND ADDITIONAL STANDARDS

PART 1 – GENERAL

PART 2 – PRODUCTS

Terms used in this document shall be defined as follows:

“Owner”: “WUSM” Washington University School of Medicine. All work shall be managed through the Department of Design and Construction.

“D & C”: WUSM Department of Design and Construction. Responsible for facilitating all construction projects at WUSM.

“EHSO”: WUSM Department of Environmental Health and Safety Office.

“Architect/Engineer”: “A/E”. The Architect or Engineer is the person licensed by the State of Missouri to perform architectural or engineering services. This term shall be used to indicate the licensed professional and/or his authorized representative. The A/E shall be the Owner’s Representative to the extent provided by the contract.

“Contractor”: The individual or firm responsible for the execution of the work as defined by the Contract.

In addition to this document, Washington University School of Medicine has established several documents to serve as guidelines and standards for the Architect/Engineer. These documents are as follows:

Washington University School of Medicine Architectural Guidelines, September 1977

Washington University School of Medicine Wayfinding Guidelines

Washington School of Medicine MSNS/TFC Horizontal Wiring Standards by WUSM Networking Services, May 22, 2001

Washington University School of Medicine Safety Policies and Procedures
