CI FLOORING SOLUTIONS CONTACT: ELLEN ZUCKER 314-909-1990

PART 2 – DESIGN GUIDELINES

Typical installations include toilet rooms, showers and locker rooms.

- A. All multi-stall toilet rooms shall receive ceramic tile. Installation of ceramic tile at single accommodation toilets shall be by exception only, as approved by the WUSM Project Manager.
- B. All floor tile shall be hard surfaced with a slip resistant surface. All Wall tile shall be glazed. All base shall be covered
- C. All proposed products and locations must be reviewed and approved by WUSM Design and Construction Department.
- D. Tile pattern shall be centered within each room or space, so that cut tiles at perimeter and projections are a minimum of half tiles and equal at opposite sides.
- E. Use of special, long lead, tiles or custom installations shall be only when approved by the WUSM Project Manager.

Multi-Stall Toilet Rooms and Showers

Floor Tile shall be: Ceramic or Porcelain, minimum 6" X 6" tile.

Wall Tile shall be: Glazed Ceramic, minimum 4" X 4" with a minimum 4' - 6" height wainscot on all walls with paint above. Full height ceramic tile at walls is also appropriate but are by exception only.

Tile Trim: Provide ceramic tile cove base and bullnose trim at top and end conditions.

Waterproofing membrane required at shower floors/walls and recommended at restroom floors with showers. Waterproof membrane shall be flashed up all walls a minimum of 6".

Locker Rooms

Floor Tile shall be: Ceramic or Porcelain, minimum 6" x 6" tile.

Wall Tile Base shall be: Bullnosed, minimum 6" height.

Part 3 – INSTALLATION

- A. Floor tile installation shall be in strict compliance with the latest edition of the “TCA”, Tile Council of North America - Handbook for Ceramic Tile Installation and ANSI A108 series/A118 series/A136.1 – American National Standard Specifications for the Installation of Ceramic Tile.
- B. Tile pattern for each area shall be dry laid, for Architects and Project Managers review and approval or adjustment prior to proceeding with installation.
- C. Joint width between tiles shall be kept to a minimum.
- D. Grout color must be approved by the WUSM Project Manager.
- E. Metal trim (schluter or approved equal) must be installed where exposed edge of tile flooring meets carpet, wood, or other flooring finish.
- F. Provide extra material (full size units), for Owners attic stock, equal to 3 percent of amount installed, for each type, composition, color, pattern and size indicated.
- G. At the project completion, after acceptance of the flooring installations, the flooring installer shall remove from the project site all adhesives, leveling compounds, mortar, grout, etc and legally dispose of.
