CI FLOORING SOLUTIONS CONTACT: ELLEN ZUCKER 314-909-1990

PART 2 – DESIGN GUIDELINES

Quarry tile is appropriate for kitchens, cart washing rooms, and glass washing rooms. Verify any other proposed locations with WUSM Design and Construction.

A. All floor tile shall be hard surfaced with a slip resistant surface. All Wall tile shall be glazed. All base shall be coved.
B. All proposed products and locations must be reviewed and approved by WUSM Design and Construction Department.
B. Tile pattern shall be centered within each room or space, so that cut tiles at perimeter and projections are a minimum of half tiles and equal at opposite sides.
C. Use of special, long lead, tiles or custom installations shall be only when approved by the WUSM Project Manager.

Part 3 – INSTALLATION

B. Tile pattern for each area shall be dry laid, for Architects and Project Managers review and approval or adjustment prior to proceeding with installation.
C. Joint width between tiles shall be kept to a minimum.
D. Grout color must be approved by the WUSM Project Manager.
E. Metal trim (schtuler or approved equal) must be installed where exposed edge of tile flooring meets carpet, wood, or other flooring finish.
F. Provide extra material (full size units), for Owners attic stock, equal to 3 percent of amount installed, for each type, composition, color, pattern and size indicated.
G. Joint width between tiles shall be kept to a minimum.
H. At the project completion, after acceptance of the flooring installations, the flooring installer shall remove from the project site all adhesives, leveling compounds, mortar, grout, etc and legally dispose of.
