FACILITIES OPERATIONS UPDATE  
(August 21st, 2015)

(Important WUSM coordinative communication. Please share by email.)

To: Key Stakeholders  
CC: Facilities Management

This week’s topics include:

- St. Louis College of Pharmacy Update – Temporary Lane Blockage at Duncan Avenue and Children’s Place

St. Louis College of Pharmacy Update – Temporary Lane Blockage at Duncan Avenue and Children’s Place

From: St. Louis College of Pharmacy

The St. Louis College of Pharmacy needs to perform an urgent repair/replacement of one of the brand new chiller motors on the new building. This will involve a crane being placed on Taylor Avenue, which will block the two south bound lanes between Duncan Avenue and Children’s Place. The set-up will start at 7am tomorrow (Saturday, August 22nd) and conclude around 12pm. Flagmen will be out guiding the traffic through the area and rerouting the pedestrians to the other side of the street during this time.
