FACILITIES OPERATIONS UPDATE  
(Week of August 2nd to August 8th, 2015)   

(Important WUSM coordinative communication. Please share by email.)

To:  Key Stakeholders  
CC: Facilities Management

This week’s topics include:

- Safety Topic of the Month
- BJC IOH Project Construction
- St. Louis College of Pharmacy Student Move-In Days

Safety Topic of the Month

From: Environmental Health & Safety

See attached for the Safety Topic of the Month for August.

BJC IOH Project Construction

From: BJC Planning, Design and Construction

Beginning Monday, August 17th, the BJC Planning Design and Construction Team will build out the lower level of the BJC Institute of Health (IOH) Building. This project will add rooms to the area for both BJC and WUSM Environmental Services departments along with expanding the BJC and WUSM receiving areas located at the BJC IOH dock.

Most of the construction will take place during the evening hours and some of it will be noisy at times. However, construction of these new areas will be done with an emphasis on noise remediation.

The BJC and WUSM receiving areas located at the BJC IOH dock will operate with normal hours and should only experience minimal disruptions at various times during this project that should take 4 months to complete.

Thank you for your patience and understanding.

St. Louis College of Pharmacy Student Move-In Days
From: David Strowmatt, Supervisor – Transportation Services

On Wednesday, August 12th, Thursday, August 13th and Friday, August 14th, St. Louis College of Pharmacy students will be moving into the dorm starting at 9am each day. This will put extra traffic on Children’s Place. With the construction truck traffic and deliveries, there may be some delays.

There will be a flag person working to try to help with traffic flow and will be extra informational signage further east on Children’s Place to notify trucks making deliveries that Children’s Place is reduced to one lane.
