In This Issue

- Pedestrian Safety Reminder
- BJH/WUSM Telecom Communication
- Update - Lane Closure on Southbound Taylor Avenue

Pedestrian Safety Reminder

Pedestrian safety is a growing concern in the United States. In a busy urban area like the Medical Center, pedestrians should take several precautions when walking on campus.

1. Use the sidewalk when walking on campus. Pedestrians should be facing traffic and as far to the left on the sidewalk as possible.
2. Cross the street at corners with traffic lights and/or crosswalks.
3. Eliminate distractions such as looking at a cell phone while walking.
4. At night, be sure to wear light colored clothing or reflective clothing, so you can be seen.
5. If a vehicle looks like it approaching at a high rate of speed, do not cross the street even if you have the light or right of way. The driver may not stop despite the requirement to do so.

Walking is one of the healthiest ways to travel from point to point on the Medical Center campus. Taking a few precautions can make it the safest as well.

BJH/WUSM Telecom Communication

Sent on behalf of TFC:

On Friday, February 19th, from 11pm to 3am, the BJC Telecom team will be upgrading the BJH/WUSM PBX. This upgrade will turn off all landline telephones for all buildings/campuses below during the 4 hour period. This is not our campus transition to Dial 10. No dialing patterns will change as a result of this maintenance.

During this time, no landline phones will be accessible. If you need to use a phone, you will have to use a cell phone. For the WUSM campus, if you have an emergency, you can still call 2-HELP (362-4357) and it will be routed to Protective Services on their emergency phone.

Barnes-Jewish Hospital Campus - All Buildings

Barnes-Jewish West County Hospital Campus - All Buildings including POB's

Orthopedic Center

Washington University School of Medicine

If you have any questions, please contact Tony Buttice at 314-358-2873.

We apologize for the inconvenience. Thank you for your patience and understanding while we perform this system maintenance.

Update - Lane Closure on Southbound Taylor Avenue

Due to the freezing temperatures, the City of St. Louis Water Division is unable to firmly schedule the tap and inspections due to other water main breaks in the area. This will delay the completion of the project into next week. Currently, the two southbound lanes of Taylor Avenue between Forest Park Avenue and Duncan daily are closed from 7 am until 3 pm. and this will continue into next week.

Southbound traffic will be rerouted into one of the northbound lanes to maintain two-way traffic on Taylor Avenue. Cones and message boards will be placed to direct traffic.
