Protective Services

Afterhours Neighborhood Shuttle Program

To facilitate community members' safe and secure evening travels to residences near Washington University School of Medicine, the Operations & Facilities Management Department offers the Afterhours Neighborhood Shuttle Program (ANSP). The ANSP is implemented by Protective Services and serves WUSM community members 5:00 p.m. to 12:30 a.m. each Monday through Friday evening/night. * Transdev, an international provider of private transportation options, serves as the program's contracted carrier.

ANSP shuttles depart from Olin Circle (located outside and to the south of the Shell Café) and from the 4444 Forest Park Avenue Building approximately every 30 minutes beginning at 5:00 p.m. with the last shuttle leaving at 12:30 a.m. Riders must display valid Washington University I.D. badges and identify their home addresses/destinations upon boarding. No unaffiliated people are allowed to ride.

Washington University students, employees, postdocs, and BJH residents are all eligible to enjoy this service. Neighborhoods served by the program include the Central West End, Forest Park Southeast/The Grove, DeBaliviere Place, Skinker DeBaliviere, Kings Oak, and Cheltenham. Please see the map below.

The two shuttle vehicles are white 15-passenger Ford Econoline vans. Both vehicles are equipped with running boards for ease of entry and egress. The vans can be recognized by signs in their rear side windows, "**WUSM NEIGHBORHOOD SHUTTLE.**"

This program is in addition to the existing WUSM security escort service. The "2-HELP" vans will continue to service areas of the Central West End immediately north of campus as well as Forest Park Southeast/The Grove to the south of campus on an on-call basis. For this service, call 314-362-4357.

If you have questions about this program, including whether your home address is within the service area, please email Protective Services at protectiveservices@wustl.edu.

Protective Services looks forward to serving you!

* Shuttles do not operate on weekends and holidays observed by the university. Please inquire for additional details.
