

EXTERIOR LIGHTING

DESIGN GUIDELINES

1. Summary:
 - a. This section provides guidelines and standards for Exterior Lighting.
2. Design:
 - a. Parking lot and pedestrian walkway site lighting:
 - All parking lot lighting fixtures, walkway bollards or other pedestrian walkway lighting shall have fusing at each individual pole or bollard.
 - b. Use LED exterior fixtures. A mockup of the fixture and approval from the owner must be obtained before installing.
3. Related Sections
 - a. Building Wire and Cable
 - b. Conduits, Fittings and Boxes
 - c. Lighting Controls

EQUIPMENT and PRODUCT REQUIREMENTS

1. Lighting Fixtures
 - a. Approved Manufacturers:
 - As approved by owner.
 - Refer to the attached examples of a preferred exterior wall pack fixture and a pole-mounted area light used on past projects. It is the designer's responsibility to specify and confirm with lighting manufacturers for the most current series of fixtures similar in style.
