

# Washington University Labor Rates

## All WU Projects

January 1, 2021 through June 30, 2021

This sheet is issued only twice a year. Rates expiring within six months of issue are prorated to account for anticipated increases. Trades with prorated labor rates for the current six-month period are indicated with a "P" below. If information about an anticipated increase is not available at the time of issue (trades indicated with an asterisk below), the expiring rate will not be prorated but rather will be updated when the next sheet is issued in six months.

Revised 1/15/2021

A markup for small tools & consumables is incorporated into the Washington University Labor Rates. The value of the markup is 4% of the straight time base wage, and it is added to all straight-time, time and one-half, and double-time rates.
