

Washington University Labor Rates

All WU Projects

July 1, 2023 through December 31, 2023

This sheet is issued only twice a year. Rates expiring within six months of issue are prorated to account for anticipated increases. Trades with prorated labor rates for the current six-month period are indicated with a "P" below. If information about an anticipated increase is not available at the time of issue (trades indicated with an asterisk below), the expiring rate will not be prorated but rather will be updated when the next sheet is issued in six months.

Revised 7/7/2023

Markups for "Small Tools & Consumables" (4%) and "Insurance" (4.5%) are incorporated into the Washington University Labor Rates. These markups are based on a percentage of the straight-time base wage; and they are added to all straight-time, time and one-half, and double-time rates.
